

Dear Mr. Montezudo,

Having been your patient for many years, I was already aware of your skills. In doing my dental makeover, you've done an A-one job!

At the beginning of my treatment I was so nervous and afraid of the pain I thought I would have. To my surprise the experience was almost pain free, just a slight discomfort for a day. You & Gina and your entire staff were so supportive and reassuring. You solved my problems with bite, gum recession and parotid.

Thank you so much for my new smile! It's wonderful and I will recommend you to everyone.

In love Mike
